Deciding how and when to claim Social Security is one of the most critical financial decisions a person will make in his or her lifetime. By not understanding the many complex rules surrounding Social Security, you could leave thousands of dollars on the table.

- When should I file for benefits?
- What are the advantages and disadvantages of filing at age 62 or deferring to age 70?
- How does the November 2015 change in the rules affect me?
- How can I make sure I am taking advantage of available spousal, survivor or divorced benefits?
- How much of my Social Security will be subject to income tax?
- What potential changes are in store for Social Security and how might they affect my claiming decision?

These questions and many more will be answered in this very important class.

Dan Williams Fee: \$25.00

The high cost of long-term care can wipe out a family's life savings in a short period of time. Unfortunately, many families are faced with this situation, finding themselves at the mercy of an under-funded government Medicaid system with limited choices. Recent legislative changes have created many questions surrounding planning techniques:

- How can I protect my home?
- What is the penalty for giving assets away?
- Are my assets protected if I put them in a trust?
- When is long-term care insurance worthwhile to consider?
- What if my loved one is already in a nursing home, can they still protect their assets?

All of these questions and more will be clearly answered in this very important class.
