To Download the Program for Free:

1. Access the free download from the Sunburst website: <http://ttl4.sunburst.com/downloads>
2. Navigate to the appropriate section to download the correct file. There are two: a Mac version and a Windows version. You will be downloading the web version of the "Full TTL4 Application", either for Mac or Windows.
3. The file is large and may take quite some time to download. Most users experience download times of 15-20 minutes; the time it takes depends on your Internet connection. If the expected download time is much greater than 1 hour, there is a chance your firewall software is blocking the download.
4. After downloading the file, follow the instructions for installing the program on your computer.

Families are able to check their student's progress at home.

Once Type to Learn is ready to go at home, click REPORTS on the main page to view your child's progress in the program.

Mac Users:

These files are zipped but they may not unpack automatically on all OSX operating systems. You may need to navigate to your Downloads folder and double-click on the zip folder. Launch the installer by double-clicking on the contained file in your 'Downloads' or 'Documents' folder. The contained files will be in MPKG format for installation on the Mac OS.

Windows Users:

After downloading, double-click on the installer package to launch the installer. Click Next through the prompts. Installation is very straightforward. Once installed, launch the application by clicking Type to Learn 4 in your Start menu or desktop shortcut.

5. Once you download and install the program, your child can login with his or her school username, password and account code. The username and password are identical to the username and password your child uses at school. Our account code is 117719.

Username: the same one your child uses at school. For most children, it is last name, followed by the first letter of the first name. Tom Brady's would be bradyt.

Password: the student's LASID (lunch code)

Account code: 117719
