2) Pre-School Program

Mr. McAlduff reviewed the logistics and details of the Administration's proposal to add a second AM session to the Chickering Pre-School (Pre-K) program for the 2017-2018 school year. This proposal is a result of a large increase in the 2017-18 school year applications for the program. Mr. McAlduff explained that the cost to add this second session is projected to be covered entirely by the increase in Pre-K tuition revenue. Mr. McAlduff answered some clarifying questions asked by Committee members. Mr. Hill made a motion that the Dover School Committee vote to support an additional AM Pre-K session for the 2017-2018 school year should final enrollment numbers warrant this expansion. Mrs. Doherty seconded.
